

International Digestive Endoscopy Network 2020

Name	Chang Min Cho
Country	Republic of Korea
Organization	Kyungpook National University Chilgok Hospital
Current Position	Professor

Educational Background

1998, MD, Department of Internal Medicine, School of Medicine, Kyungpook National University, Daegu, South Korea

2004, PhD, Department of Internal Medicine, School of Medicine, Kyungpook National University, Daegu, South Korea

Professional Experiences

2004-2006: Assistant Professor, Department of Internal Medicine, School of Medicine, Kyungpook National University, Daegu, South Korea

2006-2012: Associate Professor, Department of Internal Medicine, School of Medicine, Kyungpook National University, Daegu, South Korea

2012-Present: Professor, Department of Internal Medicine, School of Medicine, Kyungpook National University, Daegu, South Korea

Professional Organizations

Organoid culture for pancreatic cancer cells

Development of EUS-FNA needle

Chemotherapy for pancreatobiliary tumors

Interventional EUS procedures

Main Scientific Publications

1. Comparison of the Diagnostic Performances of Same-session Endoscopic Ultrasound- and Endoscopic Retrograde Cholangiopancreatography-guided Tissue Sampling for Suspected Biliary Strictures at Different Primary Tumor Sites. *Korean J Gastroenterol* 2019;73:213-218.

2. The efficacy of a novel lumen-apposing metal stent for the treatment of symptomatic pancreatic pseudocysts (with video). *Gastrointest Endosc* 2019.

3. Comparison of Clinical Outcomes between Plastic Stent and Novel Lumen-apposing Metal Stent for Endoscopic Ultrasound-Guided Drainage of Peripancreatic Fluid Collections. *Clin Endosc* 2019.

4. Predicting Malignancy Risk in Gastrointestinal Subepithelial Tumors with Contrast-Enhanced Harmonic Endoscopic Ultrasonography Using Perfusion Analysis Software. *Gut Liver* 2019;13:161-168.

5. Same-session endoscopic ultrasound-guided fine needle aspiration and endoscopic retrograde cholangiopancreatography-based tissue sampling in suspected malignant biliary obstruction: A multicenter experience. *J Gastroenterol Hepatol* 2019;34:799-805.
