

International Digestive Endoscopy Network 2020

Name	Min Jae Yang	
Country	Korea	
Organization	Ajou University School of Medicine	
Current Position	Assistant Professor	

Educational Background

1999 – 2005	Premedical Course, College of Medicine, Ajou University, Suwon, Korea, Degree : M.D.
2007 – 2010	Graduate School, Ajou University, Suwon, Korea, Degree : M.M.S
2016 – 2018	Graduate School, Ajou University, Suwon, Korea, Degree : Ph.D

Professional Experiences

2006 – 2010	Resident, Internal Medicine, Ajou University Hospital Ajou University School of Medicine, Suwon, Korea
2013 – 2015	Fellowship, Gastroenterology, Ajou University Hospital Ajou University School of Medicine, Suwon, Korea
2015 – 2019	Clinical assistant professor, Gastroenterology, Ajou University Hospital Ajou University School of Medicine, Suwon, Korea
2020 – current	Assistant professor, Gastroenterology, Ajou University Hospital Ajou University School of Medicine, Suwon, Korea

Professional Organizations

2014-current	Member, Korean Society of Gastroenterology
2018-2019	Member of the Scientific Committee of Korean Pancreatobiliary Association
2019-current	Member of the Scientific Committee of Korean Society of Gastrointestinal Endoscopy

Main Scientific Publications

1. Yang MJ et al. Tips for dealing with common beginner's mistakes made during endoscopic ultrasound-guided gallbladder drainage. *Dig Dis* 2020 in press.
2. Yang MJ et al. Conversion of percutaneous transhepatic biliary drainage to endoscopic ultrasonography-guided hepaticogastrostomy under balloon-targeted selective needle puncture. *Dig Endosc* 2020 in press
3. Yang MJ et al. Endoscopic retrieval of a misplaced lumen-apposing metal stent alongside a nasocystic drainage tube during endoscopic ultrasound-guided cystogastrostomy. *Dig Endosc* 2020 in press
4. Lee GH and Yang MJ et al. Balloons larger than 15 mm can increase the risk of adverse events following endoscopic papillary large balloon dilation. *J Gastroenterol Hepatol* 2019;34(8):1450-3.
5. Yang MJ et al. Management of a benign bilio-enteric stricture by a novel covered stent with a long lasso. *J Gastroenterol Hepatol* 2019;34(9):1477.
6. Yang MJ et al. Covered metal stent placement followed by EUS-guided choledochoduodenostomy for balloon-assisted ERCP-induced duodenal perforation. *Arab J Gastroenterol* 2019;20(2):103-4.
7. Yang MJ et al. Prospective Multicenter Study of the Challenges Inherent in Using Large Cell-Type Stents for Bilateral Stent-in-Stent Placement in Patients with Inoperable Malignant Hilar Biliary

- Obstruction. *Gut Liver* 2018;12(6):722-7.
